

www.smtech-solutions.com

SIA SMTECH SOLUTIONS is a leading travel technology company with more than 10 years of experience in designing and developing travel booking software, our company is managed by an experienced management board in the travel industry and run by a highly skilled team of developers with +15 years of experience in developing travel technology platforms. With offices located in India, United Arab Emirates, Turkey and Latvia we guarantee 24/7 dedicated support services.

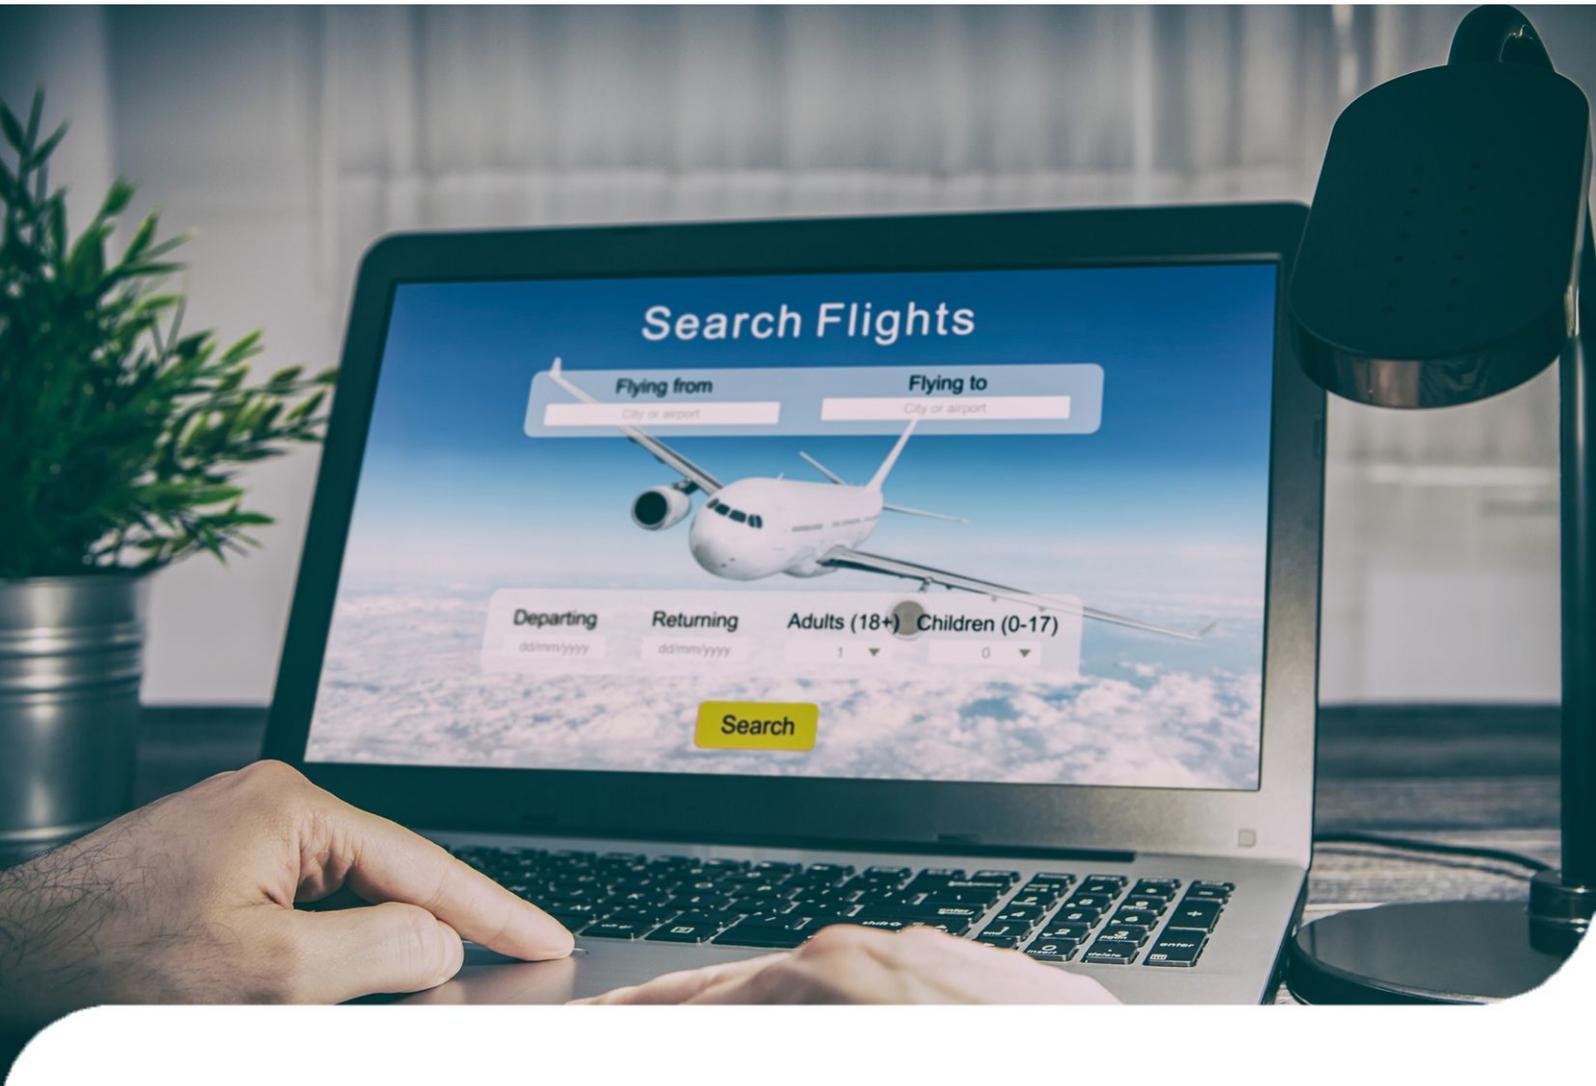

In our company we offer complete solutions for OTA's, DMC's, GSA's and other players in the tourism marketplace, to promote their travel business worldwide and to connect them with the main suppliers globally and instantly. The success of any internet project depends on using the right innovative solutions that suit its needs and receiving the right support while developing the project as well, and this is exactly what we do to our clients.

Our mission is to provide a maximum support to our clients by delivering powerful values to them via our solid booking engine platform to meet their goals and requirements as our clients' success is always our success.

WHY US

- 👉 High skilled professional team (management & developers)
- 👉 Online training for using the platform with video recording for reference
- 👉 Fast problem solving 0-30 minutes our response time
- 👉 Multi international branches GCC - India - Turkey- Europe
- 👉 24/7 online support as long as the platform is live

- ✎ Having your own platform means you have the gateway to a live connection on real time between your main suppliers GDS & GSA in the travel industry and your booking system from one side , and between you and your travelers (b2c - b2b) from other side.
- ✎ Having your own platform can reduce your operation team by minimum 35% which means reducing your operation cost.
- ✎ Having your own platform helps you manage all your booking automatically and keeping history of reports for management & finance back office support.
- ✎ Having your own platform guaranties the availability of your hotel & flight on real time.
- ✎ Having your own platform: it means no human mistakes in booking or operation.
- ✎ Having your own platform: it means your platform can be updated under your request at any time.
- ✎ Having your own platform will open a wide door for your B2B connections around the world.
